# Confidence in the future

Fiducia nel futuro.

# Italian ceramic excellence

Eccellenza ceramica italiana.

**ENERGIEKER**

INNOVATION THROUGH EXPERIENCE

**FUTURE**

Investing in R&D is our DNA, ensuring all the energy invested in research. We invest in developing new materials, surfaces, and colors, and in creating new products, and we invest in digital solutions. We strive for constant innovation by paying attention to every detail.

**SUSTAINABILITY**

Energy efficiency is a key element of our strategy. We invest in energy-saving technologies, such as LED lighting, and we use renewable energy sources. We also invest in water-saving technologies and in reducing our carbon footprint.

**HISTORY**

1986 marked the beginning of our journey and paved the way for the creation of a family ceramic tradition. Our first products were born in the workshop of our founder, who passed on his passion and his knowledge to his children, who have since carried on the tradition with the same passion and commitment.

**DESIGN**

Design is an integral part of our production process. We work with the best designers and architects to create innovative and functional products that meet the needs of our customers. We invest in design and in creating a strong brand identity.

**1986**

THE COMPANY IS BORN.

**1997**

**2015**

BIG SIZES PRODUCTION.

**2017**

CONSTRUCTION OF THE ATOMIZER.

**2022**

BIG SLABS PRODUCTION.

**2024**

NEW LOGO, NEW HEADQUARTERS.

## Energieker: an international protagonist of Made in Italy in the ceramic sector Energieker: protagonista internazionale del Made in Italy ceramico

**Energieker represents the synthesis of a long ceramic history. The brand was established in 1997, revitalizing an industrial reality that had been active since 1986. Over time, it has solidified its position in the high-end market, becoming an international protagonist of Made in Italy ceramics. Today, we channel the same passion as always into pursuing excellence in surfaces, efficient industrial processes, and effective technical solutions, looking toward the future with optimism and confidence.**

Energieker è la sintesi di una lunga storia ceramica. Il marchio è nato nel 1997 dal rilancio di una realtà industriale attiva dal 1986. Nel corso del tempo si è consolidato nella fascia alta del mercato, fino a diventare un protagonista internazionale del Made in Italy ceramico. Oggi mettiamo la stessa passione di sempre nella ricerca di superfici di eccellenza, processi industriali efficienti, soluzioni tecniche efficaci, per guardare al domani con ottimismo e fiducia.

**New ceramic solutions, product quality, international vision, and reliability in relationships with partners.**

Nuove soluzioni ceramiche, qualità del prodotto, visione internazionale e affidabilità nelle relazioni con i partner.

**The values that drive our actions have been the pillars of our company's DNA since its founding: innovation in processes, commitment to environmental sustainability, pursuit of new ceramic solutions, product quality, reliability in partner relationships, and an international vision.**

**In recent years, a significant investment plan has equipped our facilities with a production line for large porcelain stoneware slabs. Today, our plants are a hub of the best ceramic technology, offering production efficiency and managerial effectiveness, with optimized consumption and reduced emissions.**

I valori che guidano la nostra azione costituiscono i pilastri del DNA aziendale sin dalla fondazione: innovazione dei processi, impegno per la sostenibilità ambientale, ricerca di nuove soluzioni ceramiche, qualità del prodotto, affidabilità nelle relazioni con i partner, visione internazionale.

Negli ultimi anni, un ingente piano di investimenti ha completato i nostri impianti con una linea per la produzione di grandi lastre in gres porcellanato. Oggi i nostri stabilimenti sono un concentrato della migliore tecnologia ceramica in termini di efficienza produttiva ed efficacia gestionale, con ottimizzazione dei consumi e delle emissioni.

**For us, sustainability is a crucial concept: over 5 MWh of self-produced energy, 100% recycling of water and production waste, international certifications, workplace safety, employee well-being, and a dedicated logistics hub. This translates into a sustainable regional presence and a virtuous circle between the company, designers, clients, and end-users.**

Per noi la sostenibilità è un concetto concreto: oltre 5 MWh di energia autoprodotta, riciclo del 100% dell'acqua e degli scarti di lavorazione, certificazioni internazionali, sicurezza sul luogo di lavoro, attenzione al benessere dei dipendenti, polo logistico. Tutto questo si traduce in una presenza sostenibile sul territorio e in un circolo virtuoso tra azienda, progettisti, clienti e utilizzatori finali.

Tipologie di imballaggio . Typologie de l'emballage . Verpackungsarten.

## A-Frame - Cavalletto - Chevalet - Ständer

L: 330 x P: 75 x A: 200 cm - € 280

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **163x324 - 160x320**

L: 290 x P: 75 x A: 156 cm - € 240

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **120x280**

## Crate - Cassa - Caisse - Kiste

L: 343,2 x P: 172,6 x A: 36 cm - € 190

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **163x324 - 160x320**

**Crate - 20 Pc:**

L: 291 x P: 140 x A: 34 cm - € 130

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **120x280**

**Crate - 10 Pc:**

L: 292 x P: 132 x A: 21 cm - € 70

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **120x280**

## Pallet with sides - Pallet con sponde - Palettes - Paletten Gestell

L: 168 x P: 97 x A: 57 cm - € 50

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **80x160 - 30x160 - 20x160**

L: 143,2 x P: 124 x A: 56,1 cm - € 30

**Slab Size** - Formato lastre - Dimension des dalles - Plattenformat: **120x120**

**Special picking packaging is available for less than 10 pcs.**

Per imballi contenenti un numero di scatole minori di 10 sono previsti anche degli imballi speciali.  
Pour les emballages contenant un nombre de boîtes inférieur à 10, ils sont prévus aussi de conditionnements spéciaux.  
Lieferungen von weniger als 10 Kartons werden in Speziellen Verpackungen geliefert.

**Should you fit multiple sizes packing, please contact us in order to maximize the best composition (max sqmts load).**

Per carichi misti tra vari formati contattare l'azienda per la soluzione migliore.  
Pour tout chargement en mélange avec différents formats, contactez s'il vous plait l'usine à fin de trouver la solution la plus adaptée.  
Bei Verladungen von verschiedenen Formaten wenden Sie sich an das Unternehmen, um die beste Lösung zu erfragen.

# Packaging handling

Movimentazione degli imballi . Manipulations des emballages . Verpackungsarten.

**For a correct and safe handling of crates, A-frame and pallets, it is recommended to use a forklift with a capacity of 5 tons and with forks at least 250 cm long.**

Per una corretta e sicura movimentazione di casse, cavalletti e pallet si raccomanda l'utilizzo di un carrello elevatore con portata di 50 quintali e con forche di lunghezza pari almeno 250 cm.

Pour une manipulation correcte et sécurisée des caisses, des tréteaux et des palettes, nous recommandons l'utilisation d'un chariot élévateur avec une capacité de 50 quintaux et avec des fourches d'une longueur d'au moins 250 cm.

Für eine korrekte und sichere Handhabung von Kisten, Böcken und Paletten empfehlen wir die Verwendung eines Gabelstaplers mit einer Kapazität von 50 Doppelzentner mit Gabeln einer Länge von mindestens 250 cm.

# On-site slabs handling

Movimentazione delle lastre in cantiere . Manipulation des grandes dalles sur le chantier  
Verarbeitung der grossformatplatten auf der baustelle.

**Suction cups are absolutely necessary for the handling of each slab and, where appropriate, a trolley can also be used.**

Per la movimentazione di lastre singole sono assolutamente necessari degli organi di presa a ventose ed eventualmente anche un carrello con ruote per il trasporto.

La manipulation des plaques individuelles necessite imperativement de dispositifs dotés de ventouses et éventuellement aussi un chariot avec des roues pour en faciliter le transport.

Zur Handhabung von Einzelplatten sind Greifvorrichtungen mit Saugnäpfen und möglicherweise auch ein Wagen mit Rädern für den Transport nötig.

**Handling frame equipped with suction cups**  
Telaio di movimentazione dotato di ventose  
Châssis doté de ventouses  
Transportrahmen mit Saugnäpfen

**Wheeled trolley**  
Carrello con ruote  
Chariot à roues  
Rollgestell

**Working table**  
Banco da lavoro  
Table de travail  
Arbeitstisch

**In addition, the dimensions of the slabs require great caution and attention in all movements. For the 160x320 format the presence of four operators at the same time is compulsory and the slabs must be handled on the long side, in order to avoid bumps or excessive bending.**

Inoltre, le elevate dimensioni delle lastre richiedono grande cautela e attenzione in tutti gli spostamenti. Per il formato 160x320 è necessaria la presenza di quattro operatori contemporaneamente e la movimentazione della lastra deve sempre seguire il lato lungo, al fine di evitare urti o eccessive flessioni.

De plus, les dimensions élevées des dalles exigent beaucoup de prudence et d'attention dans tous les mouvements. Pour le format 160x320 est nécessaire la présence de quatre opérateurs à la fois et le mouvement de la plaque doit toujours suivre le côté long, à fin d'éviter des chocs ou une flexion excessive.

Außerdem erfordern die Dimensionen dieser Platten bei allen Bewegungen große Vorsicht und Aufmerksamkeit. Für das Format 160x320 sind zur Vermeidung großer Biegungen stets 4 Personen zur Bewegung oder Umlagerung der Platten notwendig und eine Umlagerung sollte immer mit entsprechender Unterstützung der langen Seite erfolgen.

**The dimensions and weight of the EKXTREME line require specific safety measures to allow operators to work safely and to avoid any possible breakages of the slabs.**

Dimensioni e peso dei formati della gamma **EKXTREME** richiedono apposite misure di sicurezza per consentire agli operatori di lavorare senza pericoli, evitando così possibili rotture delle lastre stesse.

Les dimensions et poids de la gamme **EKXTREME** nécessitent des mesures de sécurité spécifiques pour permettre aux opérateurs de travailler sans risques, évitant ainsi de possibles ruptures de plaques.

Maße und Gewichte der **EKXTREME**-Reihe erfordern spezifische Sicherheitsmaßnahmen damit die Bediener gefahrlos arbeiten können und ein eventueller Plattenbruch vermieden wird.
